1. Svit National Corporation at Gottwaldov (P60/ 0 21). Svit is being systematically liquidated, and, because it has served as a reminder to the Czechoslovak public of the Bata enterprise, the liquidation may be dictated by political considerations. The plants for the production of machine tools have been merged with factories producing light machinery. The foundries have been incorporated into CKD Krivan, National Corporation, at Martin (formerly Turciansky Svaty Martin) (Q50/ 0 69). The rubber processing combine has been broken up and most of the individual plants transferred to the automobile and aircraft industry. Shoe factory manufacturing units have been transferred to the textile industry. Other Svit components are undergoing reorganization.
2. Exico Co. Exico, an import-export company for leather and rubber raw materials and products, located at 12 ulice 28. ríjna, Prague II, and its branch office in Bratislava have been closed under the current reorganization. All rubber for the automobile and aircraft industry is now purchased by Motokov, an import-export company for vehicles and light industry products, located at the Veletrzni palac, tr. Dukelskych hrdinu, Prague VII. The remainder of the raw materials formerly purchased by Exico are now purchased by Centrotex, an import-export company for textiles and clothes, located in the same building as Motokov.
